## MEDICINAL.

**DR. PIERCE'S FAVORITE PRESCRIPTION**  
MAKES WEAK WOMEN STRONG AND SICK WOMEN WELL.

"I had female trouble for eight years," writes Mrs. L. J. Dennis, of 825 East College St., Jacksonville, Ill. "Words cannot express what I suffered. I sought relief among the medical profession and found none. Friends urged me to try Dr. Pierce's Favorite Prescription. When I commenced taking this medicine I weighed ninety-five pounds. Now I weigh one hundred and fifty-six pounds—more than I ever weighed before. I was so bad I would lie from day to day and long for death to come and relieve my suffering. I had internal inflammation, a disagreeable drain, bearing down pain, and such distress every month but now I never have a pain—my own work and am a strong and healthy woman."

Sick women are invited to consult Dr. Pierce by letter. Correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

[COMMUNICATED.]  
**KINDERGARTEN.**—Although the account of the annual meeting of the Kindergarten Association was a good one, yet it failed to mention the points of the various speakers; points which are, as a rule, unfamiliar to most of our citizens on this comparatively new method of instruction. I had hoped some one more competent would have given a synopsis of the addresses. As they did not, I will endeavor to do so.

Dr. Hunt, after a few complimentary remarks, told of his experience with kindergarten work in Augusta, Ga., where public sentiment, like it is here, was against any new method. After much difficulty, it was finally tried and has worked so successfully that now if one of two branches of education had to be abolished, the high school or the kindergarten, it would be the former. He defined the kindergarten as a "garden of little children," where they are taught object lessons and helpful games, or as Froebel, the founder, puts it, "to give children employment suited to their nature, strengthen their bodies, exercise their senses, employ the making mind, make them acquainted judiciously with nature and society, cultivate especially the heart and temper, and lead them to the foundation of all living—to unity with themselves." He concluded by expressing the hope that the day is not far distant when Alexandria will add kindergartens to its regular public school system.

Mrs. Kate Walker Barrett gave a practical talk on the after effects of training of this character. She made a strong point when she said that it taught them to be neat, watchful, industrious, saving, carrying into their parents' home the idea of taste without ostentation; that the home can be made attractive with simple decorations, and above all it kept them busy teaching their fingers not to destroy nor disfigure, and when grown the benefits of this instruction would be shown when they had homes and children of their own.

Rev. Mr. Phillips spoke of the effect of work among children; it was often possible to enter through the children into the homes when it would not be otherwise. The influence was unseen otherwise. How by teaching them "how to do" we are laying foundations which will stand them throughout life.

Mr. Kemper in closing the meeting spoke in terms of high praise of the forcible, logical and scholarly address of Dr. Hunt; the useful and practical suggestions of Mr. Phillips, and the soul-inspiring utterances of Mrs. Barrett, spoken out of her large experience and a heart full of tender, loving sympathy for little children. He expressed the hope that the City Council would in the near future appropriate money sufficient to carry on at least two kindergartens in connection with the public school system.

In conclusion, I would say that a system of instruction (known as the Kindergarten) has been discovered whereby our children are taught scientifically as an age before they are admitted to the regular curriculum of our public schools. Some time ago a report was issued by a committee to investigate prisons and among other queries propounded was that of early training. Of all these examined not one had been to a Kindergarten. While they did not think this conclusive proof of the value of such method, still the committee thought it rather remarkable that other reasons heartily endorsed the establishment of these schools in all parts of the state. Is Alexandria, which heretofore has been in the forefront of public instruction, to be among the last to recognize the value of improved methods in the education of the young? Let us hope not, for the children of today are the citizens of the future and into their hands the keeping of the welfare of this grand old city and commonwealth of ours is to be entrusted.

"ONE WHO HAS BEEN CONVERTED."

**A Very Remarkable Remedy.**  
"It is with a good deal of pleasure and satisfaction that I recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Druggist A. W. Sawtelle, of Fairfax, Conn. "A lady customer, seeing this remedy exposed for sale on my show case, said to me: 'I really believe that medicine saved my life the past summer while at the shore,' and she became so enthusiastic over its merits that I at once made up my mind to recommend it in the future. Recently a gentleman came into my store so overcome with colic pains that he sank at once to the floor. I gave him a dose of this remedy which helped him. I repeated the dose and in fifteen minutes he felt as well as ever." Sold by Richard Gibson, druggist.

**NASAL CATARRH** quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. A remedy for Nasal Catarrh which is dry or excruciating to the nostrils should not be used. Cream Balm is recognized as a specific. Price 50 cents at druggists or by mail. A cold in the head immediately disappears when Cream Balm is used. Ely Brothers, 56 Warren Street, New York.
